PROFESSIONAL SUMMARY

MCA student (Christ University, 2025-2027) with internship experience in cloud computing and WordPress web development, Android app development, and IEEE conference-presented research on CNN-based brain tumour classification from MRI. Skilled in Python, Java, C, MongoDB, MySQL, React, and PHP. Eager to apply technical knowledge and grow in a dynamic IT environment.

Using technology to build intelligent, secure solutions that make a real-world impact.

TECHNICAL SKILLS

- **Programming Languages:** Python, C, Java
- **AI & ML:** OpenAI API, Google Gemini, Regression, Convolutional Neural Networks (CNN), MRI Image Classification
- **Databases:** MongoDB, MySQL, Excel
- **Web Development:** HTML, CSS, JavaScript, React, PHP, WordPress
- **Mobile Development:** Java (Android Studio)
- **Cloud & Security:** Cloud Computing, Cybersecurity Fundamentals, Blockchain Fundamentals
- **Testing & Other Tools:** Selenium WebDriver with Python, MATLAB

EXPERIENCE

Cloud Computing Intern | NIELIT **May 2024 - August 2024**

- Designed and implemented cloud-based solutions focusing on security, scalability, and efficient resource management.

Product Management Intern | GAOTek **December 2024 - April 2025**

- Developed and customized web pages using WordPress with a focus on functionality, usability, and responsive design.

RESEARCH

Research Paper Presenter | ICONICA 2026, IEEE Conference **March 2026 - August 2026**

- Comparative Analysis of Advanced CNN Architectures for Multi-Class Brain Tumor Classification Using MRI.
- Presented in Track 2: Artificial Intelligence and Machine Learning, August 2026.

PROJECTS

Placement Cell Management System | MCA First Year Project **July 2025 - October 2025**

- Built a system to manage student placements, job postings, and recruiter interactions efficiently.

To-Do List Application | BCA Final Year Project **September 2023 - May 2024**

- Designed and developed an Android application using Android Studio with task creation, updating, and deletion, focused on usability and efficiency.

CareerCompass AI – AI-Powered Career Guidance Platform | MCA First Year Project **October 2025 - April 2027**

- Developing an AI-powered platform that provides personalized career recommendations, educational roadmaps, skill-gap analysis, and learning guidance using React.js, Node.js, MongoDB, and Google Gemini API.

CERTIFICATIONS

- Infosys - Network Fundamentals; Blockchain 101
- Infosys - Blockchain in Depth; Blockchain Enterprise
- Palo Alto Networks - Cybersecurity
- MongoDB - Introduction to MongoDB; Document Model; Java Developer Path
- MathWorks - Video Data in MATLAB
- Udemy - Selenium WebDriver with Python
- NIELIT Virtual - Cloud Computing

EDUCATION

Master of Computer Applications (MCA) | Christ University, Delhi **July 2025 - June 2027 (Expected)**

Bachelor of Computer Applications (BCA) | CGPA: 7.65 **August 2022 - July 2025**
Kristu Jayanti (Deemed to be University), Bengaluru
